**Saipem awarded two new offshore construction contracts
worth in excess of 430 million USD in Egypt and Brazil**

San Donato Milanese (Milan), 4 August 2006 – Saipem has been awarded two new contracts worth in excess of 430 million USD for offshore construction in Egypt and Brazil.

Egypt

The first contract (EPIC: Engineering, procurement, installation, construction), awarded by Burullus Gas Company¹, is for the expansion of the existing Scarab/Saffron and Simian subsea developments, located offshore the Nile river delta, about 120 km northeast of Alexandria. The contract encompasses design, engineering, procurement, fabrication, installation and commissioning of the subsea development system for eight additional wells, at a maximum water depth of 1,000 metres. The activities will be carried out by the vessels Saibos FDS (Field Development Ship) and Sonsub Normand Cutter and will be completed at the end of 2007.

Brazil

The second contract, awarded by Companhia Mexilhao do Brasil, is for the transport and installation of the offshore structures related to the Petrobras Mexilhao field development, in the Santos Basin, located about 140 km from the shore of the State of Sao Paulo. The contract covers the transport and installation of the jacket, piles and topside modules of the PMXL-1 platform, weighing about 24,000 tons. Saipem 7000 will be the vessel carrying out the work, which will take place in the first half of 2009.

[1] Burullus Gas Company is the Joint Operating Company of the West Delta Deep Marine Concession Owners: Egyptian General Petroleum Company, BG Group plc. of Great Britain (Operator) and Petronas of Malaysia.

Saipem (43% owned by Eni) is a leader in the provision of Engineering, Procurement, Project Management and Construction services for the Oil & Gas Industry, with unique capabilities in designing and executing large scale offshore and onshore projects. Saipem has a strong bias for operating in deepwater and remote areas. It has significant technological competence in gas monetization and heavy oil exploitation.

**Sergio Polito, General Manager of Procurement, Assets and R&D at Saipem,
appointed Senior Vice President of Procurement at Eni**

San Donato Milanese (Milan), 31 August 2006 – Saipem announces that, effective 1st September 2006, Sergio Polito, General Manager of Procurement, Assets and R&D, will leave the company, taking up his new position as Senior Vice President for Procurement at Eni. Sergio Polito's responsibilities with Saipem will be reassigned within the company.

Saipem thanks Sergio Polito for his valuable professional and personal contribution to Saipem's growth and for his important work over his many years with the company.

**Saipem awarded new onshore drilling contracts
worth an estimated USD 280 million**

San Donato Milanese, 19 September 2006 – Saipem has been awarded 13 new contracts for the charter of onshore drilling rigs worth an estimated total of USD 280 million.

Drilling will take place in Saudi Arabia, Kazakhstan, Algeria, Egypt, Peru and Venezuela, for periods ranging between 4 months and 5 years, depending on the terms of each contract.

Saipem currently operates a fleet of more than 40 onshore drilling and workover¹ rigs in Saudi Arabia, North Africa, Caspian, Latin America and Italy. An estimated half of these have the capability to drill to a depth of more than 6,000 metres.

These contracts allow Saipem to further consolidate its position in those areas where it has a long-standing presence in its onshore and offshore construction business, taking advantage of synergies and leveraging local content.

Saipem (43% owned by Eni) is a leader in the provision of Engineering, Procurement, Project Management and Construction services for the Oil & Gas Industry, with unique capabilities in designing and executing large scale offshore and onshore projects. Saipem has a strong bias for operating in deepwater and remote areas. It has significant technological competence in gas monetization and heavy oil exploitation.

Saipem wins new contracts worth USD 1,420 million in Saudi Arabia and Peru

San Donato Milanese, 22 September 2006 – Saipem has been awarded two new contracts for onshore construction worth USD 1,420 million.

The Saudi Arabian company Saudi Aramco has awarded Saipem, through its subsidiary Snamprogetti, the lump sum turn key contract for the EPC (engineering, procurement and construction) of the gas-oil separation plant (GOSP), as part of the program for the development of the Khurais field, located some 180 kilometres northeast of Riyadh, the Saudi Arabia's capital.

The contract encompasses the engineering, procurement and construction of four separation trains including necessary Plant Inlet Facilities. It will have a total capacity of 1,200,000 daily bbl and is expected to be completed in the second quarter of 2009.

In Peru, Peru LNG has awarded Saipem, in conjunction with Constructora Norberto Odebrecht (CNO) and Jan de Nul Group, a contract to develop Marine Export Facilities at the Pampa Melchorita LNG facility located 200 kilometres South of Lima.

The contract encompasses the engineering, procurement and construction of a 1,350 meter approach trestle, LNG carrier loading facilities and approach channel, and an 800 meter offshore breakwater. The Project will be completed in 40 months.

Saipem (43% owned by Eni) is a leader in the provision of Engineering, Procurement, Project Management and Construction services for the Oil & Gas Industry, with unique capabilities in designing and executing large scale offshore and onshore projects. Saipem has a strong bias for operating in deepwater and remote areas. It has significant technological competence in gas monetization and heavy oil exploitation.

Saipem acquires 50% of the Indian engineering company Triune Projects

San Donato Milanese, 26 September 2006 – Saipem has acquired 50% of the Indian engineering company Triune Projects, for USD 10 million.

Triune Projects, based in New Delhi, provides specialized engineering services for the oil & gas industry and employs 320 people.

The acquisition of the 50% stake in Triune Projects will further strengthen Saipem's engineering capabilities in India, where it already owns 100% of SIPS (Saipem India Projects Services Ltd), an engineering company based in Chennai which employs 500 engineers.

Saipem (43% owned by Eni) is a leader in the provision of engineering, procurement, project management and construction services for the oil & gas Industry, with unique capabilities in designing and executing large scale offshore and onshore projects. Saipem has a strong bias for operating in deepwater and remote areas. It has significant technological competence in gas monetization and heavy oil exploitation.

Saipem awarded a new contract worth USD 570 million in offshore Angola

San Donato Milanese (Milan), 27 September 2006 – Saipem has been awarded a contract for the provision and management of a FPSO (Floating Production Storage and Offloading)¹ vessel by the Angolan oil company Sonangol P&P. The vessel will be used for the development of the Gimboa field, located about 85 kilometres off the coast of Angola, in Block 4/05 at a water depth of 700 metres.

The contract, which has a total value of approximately USD 570 million², is for six years and Sonangol has a five-year extension option.

Saipem will convert an oil tanker into a FPSO vessel with a storage capacity of 1,800,000 barrels and a production capacity of 60,000 barrels of oil per day. The FPSO will be delivered in early 2008, when the first oil is expected.

The Gimboa FPSO is the second contract that Saipem has won on a standalone basis in the Leased FPSO market, following the award of the Citade de Vitoria FPSO contract in Brazil.

Saipem (43% owned by Eni) is a leader in the provision of engineering, procurement, project management and construction services for the oil & gas Industry, with unique capabilities in designing and executing large scale offshore and onshore projects. Saipem has a strong bias for operating in deepwater and remote areas. It has significant technological competence in gas monetization and heavy oil exploitation.
